

Each MJD website features:

### Beautiful templates

The reason we can offer such an amazing product for such an affordable price is because each of our sites begins with a standard template. From a wide variety of amazing templates, your site will emerge as its own, fully customized web presence: not another one like it!

### An easy to use & simple to manage content management system

Our content management system (CMS) is easily accessible by even the most technologically challenged member of your staff or congregation. Best, it's accessible through any Internet connection so you can update your site anywhere you can connect to the web. No more going through a web designer to make a simple change or update to your site. You are in control!

### Search engine friendly templates

All of our sites are pre-wired for maximum search engine performance by combining the power of our CMS through the superior templates that are the starting point for each and every site.

### Google Analytics

Want to see how many people are hitting your site? Where they're coming from and how long they're staying? Monitor your Web traffic and performance through the power of Google Analytics, straight from your site's control panel.

### Google Apps

Because we set you up with a Google Apps account when you sign up, you have instant access to that suite of tools, including Google Mail, Docs, Calendar, and more. This basically ensures that your e-mail address is as professional as your website: pastor@churchname.com rather than pastor@yahoo.com.

### This is what our clients have to say about our websites:

"In one form or another, every single visitor to our church says the same thing: **Your church website had me at hello.** Thank you, Melanie, for making our first impression irresistible."

Kyle Wallace, Church of the Good Shepherd, Davidson NC

"I've worked with Melanie Johnson on several web and design projects over the last year. Her professionalism, flexibility, creativity, **heart-for-ministry** and price-point fairness have made her indispensable to us as a church and an asset to the Anglican Mission."

Jonathan Tagg, The River, Blacksburg VA

"I am so excited about Melanie's work... she has had such an impact on helping churches and folks communicate better their mission. **She offers excellent work and a dependable service.** I recommend Melanie everywhere I go. I am grateful for her work."

Alan Hawkins, Apostles Mission Network Leader, Greensboro NC
